what is a blog?

A blog (a portmanteau of web log) is a website where entries are written in chronological order and displayed in reverse chronological order.

Blogs provide commentary or news on a particular subject such as food, politics, or local news; some function as more personal online diaries. A typical blog combines text, images, and links to other blogs, web pages, and other media related to its topic.

Resolution 2007 - Promoting Digital Equity

Sunday, January 14, 2007

Posted by Lucie deLaBruere

 [Comments \[3\]](#)

As you move forward in the digital age, take the time to notice [who we might be leaving behind](#). How about adding digital equity to your 2007 resolution. Consider expanding the definition of *No Child Left Behind* to include "*no child left behind in a digital age*". **My 2007 resolution is to renew my commitment to [digital equity](#) and provide increased resources to teachers for bridging the digital divide in their schools.**

1. I resolve to update [my collection of keyboarding resources](#) and promote keyboarding skills in **ALL** students.

Ignore those who tell you that we don't need to teach this skill anymore because of the voice recognition technology or because today's kids are on the computers so much they pick it up naturally. Those who use effective keyboarding techniques will build skills and gain increased productivity, while those who don't will get further and further behind in their schoolwork. Don't forget to include assistive technology options for students with disabilities.

2. I resolve to know [which students lack access to digital tools](#) at home.

Informally inquire about students access, so that you can provide solutions that help these students and their families. I make old keyboards available with [keyboarding practice sheets](#) AND teach students how to practice on a keyboard alone. I was surprised

The image shows the 'Add and Arrange Page Elements' interface in WordPress. It features a blue header bar with a logo on the left, the title 'Navbar' in the center, and an 'Edit' link on the right. Below the header, the main content area is divided into two columns. The left column contains a large box labeled 'Blog Posts' with an 'Edit' link at the bottom right. The right column contains three smaller boxes: 'NECC Lounges (Header)' with an 'Edit' link, 'NECC 2007 Lounges' with an 'Edit' link, 'Blog Archive' with an 'Edit' link, and 'About Me' with an 'Edit' link. At the bottom of the right column, there is a dashed box labeled 'Add a Page Element'. At the bottom of the main content area, there is a dashed box labeled 'Add a Page Element'.

Removing the NavBar (hosted)

Unfortunately, the NavBar cannot be disabled in blogs hosted at [blogspot.com](https://www.blogspot.com).

Removing the NavBar (not hosted)

Click on “Template” then change NavBar drop down option choice to “Off”

Change the Blogger
NavBar

A screenshot of a dropdown menu from the Blogger interface. The menu is open, showing a single option labeled 'Off'. The text 'Off' is inside a dotted rectangular box, and a small downward-pointing arrow is visible to the right of the box.

The Blogger NavBar is a navigation bar and toolbar with a form that allows people to search *just your weblog* using Google's SiteSearch and gives you the ability to check out what's happening on other recently published blogs with one click. This bar replaces the advertisements that used to be displayed at the top of some blogs.

Posts vs. comments

- Blog posts = published entries in the blog
- Comments = reader's responses to blog posts

Labels (tags)

- Labels are keywords associated with individual posts.
- These are often referred to as “tags” in the blogosphere.
- Tags are searchable, and have become a taxonomy of sorts - referred to as a ‘folksonomy’ since they’re user-determined.

team blogs

- Go to “Settings” then “Permissions”
- Click 
- Then enter email addresses:
